## PROFESSIONAL EXPERIENCE

- Portfolio Site Commission – Freelance Web Developer** August 2025 – September 2025
- Designed and developed a responsive, multilingual portfolio website with SEO optimization for an industrial designer, implementing a scalable slideshow system for project showcases
  - Incorporated client feedback throughout development, and two rounds of revisions afterwards to ensure clarity and satisfaction

- Taksu Tech – Mobile Front-end Developer; Bali, Indonesia** July 2025 – October 2025
- Built the majority of UI components in React Native for a production project in 3 weeks, delivering UI implementations aligned closely with Figma design specs while maintaining code quality
  - Completed UI implementation ahead of schedule, contributing to earlier project progression

## TECHNICAL PROJECTS

- Personal Portfolio Site – Solo Developer** July 2025 – August 2025
- Tech Stack: HTML, CSS, JavaScript, TypeScript, Tailwind CSS, React, NextJS
- Built and deployed a multilingual portfolio with light/dark mode using React
  - Focused on UI polish, component structure, and deployment via Vercel
  - Iterated from earlier static implementations using HTML/CSS/JS

- Animated Matrices – Solo Developer** June 2024 – Present
- Tech Stack: Python, Plotly, Plotly Dash, CSS
- Built a web app to visualize complex mathematical concepts through interactive animations, helping to teach students linear algebra intuitively
  - Designed and managed application state with undo/redo features, handled user-input edge cases, and maintained structured documentation throughout the project

- Croquis Image References – Solo Developer** August 2023 – April 2024
- Tech Stack: Python, Tkinter, CustomTkinter
- Built a quick-sketch reference app with a focus on intuitive UX, enabling artists to practice more efficiently with their own references
  - Iterated with a professional artist to refine app functionality; now regularly used with zero reported issues

## EDUCATION

- Wira Harapan Vocational Highschool | Visual Communication Design Program** 2024 – 2026
- Overall Score: 92/100 | Joined a web design extracurricular and built an admin dashboard with Laravel
